TWO GRAND JURORS ARRESTED

United States Entering Period Of Good Business Recovery

EUROPEAN WAR HELPING MOST, EXPERTS THINK

Upturn Also Credited To Improved Domestic Economic Conditions
ECONOMISTS DISCUSS
Many Believe Early Peace Would Bring Temporary Recession

By Henry Pantner
NEW YORK, Oct. 9.—(AP)—The United States is entering a period of good business recovery, leading economists said today.
This business upturn is due to domestic economic conditions and the European war, most of them said.
Early peace in Europe, probably would bring a temporary recession to American business, most also agreed.
The Associated Press asked 50 leading economists for their views on the present business upturn. The list was selected with a view to obtaining a fair cross-section of opinion regarding the causes, present and future, of the upturn, and the effect of the European war on the American economy.
1. What is the primary cause of the present business upturn?
War—4
Domestic business conditions—16
Business confidence—1
2. How long will the present upturn last?
As long as the European war lasts—14
Until the end of 1939—4
For some time to come—5
Until the end of 1940—1
Until spring—3
No opinion—2
3. Dependence on domestic policy—1
4. How would early peace in Europe affect United States business?
Hurt business temporarily—21
Other factors more important—9
4. Will we have a recession?
At least a good business recovery—16
Possibly—4
No—4
Probably—2
Yes, if United States enters the war—2
No opinion—2
5. A number of the economists warned that accumulation of inventories had been largely in expectation that European war orders would bring higher prices and slower deliveries and that production delay of European buying might bring about an entirely different domestic business picture.
Some opinion expressed by the economists as to reasons were personal, and not necessarily those of the economists' business or educational connections.
Seymour I. Andrew, American Telephone and Telegraph company, New York City.
"The maintenance of business improvement beyond the remainder of this year will depend upon the degree to which the inventories now being accumulated move into consumption."
James Washington Bell, Northwestern university, Evanston, Ill.
"The recent upturn in business is not wholly due to war influences, and the prospects are good for a continued recovery, regardless of the fortunes of war."
M. R. Benedict, University of California, Berkeley, Calif.
"It is an open question whether mechanisms for control of speculative booms will prove effective, if one really gets under way. Whether boom psychology takes hold will depend considerably on whether Europe moves into major war, or backs away in the future."
Stuart Chase, recently consultant to temporary national economic committee, Georgetown, Conn.
"The boomlet would collapse with early peace. With cash and carry law enacted, a massive upturn is unlikely. Even with embargo repeal, munitions sales are likely to be moderate. The

Cotton Crop Is Fixed At 11,928,000 Bales

Compares With Government Forecast Of 12,380,000 Last Month
WASHINGTON, Oct. 9.—(AP)—The agriculture department forecast this year's cotton crop today as 11,928,000 bales of 500 pounds gross weight.
The forecast of production, based on the condition of the crop October 1, was the third estimate of the season, and compared with 12,380,000 bales forecast a month ago and 11,412,000 bales forecast two months ago. Production was 11,943,000 bales last year and the average production for the ten years, 1928-37, was 13,807,000 bales.
The condition of the crop on October 1 was 68 per cent of a normal, compared with 70 a month ago, 66 a year ago and 61, the average condition on that date for the ten years 1928-37.
The indicated yield of lint cotton was reported as 23.77 pounds to the acre, compared with a forecast of 24.47 pounds a month ago, 23.77 two months ago, 23.54 produced last year, and 19.8, the 1928-37 average yield.
The census bureau reported 6,666,712 running bales, counting round as half bales and excluding linters, of this year's crop had been ginned prior to October 1, compared with 6,577,109 a year ago and 5,260,011 two years ago.
The crop ginning board, in releasing its figures, said:
"The indicated production declined from 12,380,000 bales last month to 11,928,000 bales today."
Work on this problem went on as anticipated, sources said they had nothing new to add to the question of peace or war. They said that Hitler had made his statement and that now it was up to neutrals and the belligerents on the other side to make the next move.
Many of Germany's millions believed peace was just around the corner.
In his reichstag speech Hitler said Germany's most important task in Poland was establishment of "a new order of ethnographic (racial) conditions" that is to say, resettlement of nationalities. The problem, however, was not restricted to Poland, he added in declaring that the east and south of Europe is to a large extent filled with splinters of the German nation.

Britain Keeps War Plans At High Pace

HIGHEST COURT TO PASS ON 3 LABOR ISSUES
Controversies Between A. F. L. And C. I. O. Will Be Heard
DENIES MANY PLEAS
Lower Court Rulings Must Stand Unless Hearings Granted
WASHINGTON, Oct. 9.—(AP)—The supreme court agreed today to pass on three controversies between the American Federation of Labor and the C. I. O. over interpretation of the national labor relations act.
Acting on approximately 300 petitions filed during the summer, the court consented.
To review a decision by the United States court of appeals for the District of Columbia leaving in effect a certification by the labor board of a C. I. O. union as the exclusive bargaining agency for Pacific coast longshoremen. The court of appeals said it did not have jurisdiction to pass on the controversy.
To pass on a ruling by the sixth federal circuit court denying the labor board the right to place the name of only one labor organization (a C. I. O. affiliate) on the ballot for a run-off election to determine collective bargaining representation for employees of the Consumers Power company at Jackson, Mich. The federation argued that its affiliate should be placed on the ballot.
To review a decision by the fifth federal circuit court setting aside a labor board order directing the Waterman Steamship corporation of Mobile, Ala., to reinstate a group of employees with back pay. They were dismissed after changing their membership from a federation affiliate to a C. I. O.

FACE CONTEMPT CHARGES AFTER BYRNE ATTACK

Effort Made By Orleans Body To Replace District Attorney

JUDGE DENIES PLEA

Refuses To Allow Petition For Substitution To Be Read

NEW ORLEANS, Oct. 9.—(AP)—A wild disorder and confusion in criminal district court here today, as members of the Orleans parish grand jury were ordered arrested shortly before noon today by Judge George P. Platt of the criminal district court after they attempted to read a petition directed at District Attorney Charles A. Byrne.
The petition, which the judge refused to entertain and ordered not published, asked the judge to remove Byrne and his assistants from their position as legal advisers to the grand jury because of alleged interference with proper functioning of the jury, his refusal to summon witnesses the grand jury sought to question, and other alleged acts of obstruction.
Edward H. Powell, a grand juror, was grabbed by several deputy sheriffs and hustled from the court room after Platt ordered his arrest for alleged contempt.
Sidney De Armas, another juror, likewise was taken into custody when he attempted to continue reading the petition. Six members of the jury entered the courtroom with the petition just before the near riot started.
Swearing charges of interference with the jury's work, insultation of witnesses through examining them before they entered the court room, and other alleged obstructive tactics which prevented the jury from performing its sworn tasks were directed against Byrne.
The court scene followed a lengthy conference in the grand jury room at which 7 or 8 grand jurors were present. There was much confusion, and it was apparent the jury was seeking to take matters into its own hands over the head of Byrne.
The jury has recently been investigating various forms of alleged irregularities, among them dual office holding, "deadheads" on the state payroll, bribery, embezzlement in connection with the double moving of a Charity hospital building, embezzlement in connection with a boat given former Governor Richard W. Leche, and other matters.
Byrne, staunch administrationist, was appointed by the late Governor Oscar K. Allen in 1934 to succeed Eugene Stanley, now seeking the attorney generalship, when the latter resigned.
Stanley quit when Senator Huey P. Long, bitterly opposed for years by Stanley, had the legislature pass an act giving the attorney general of the state power to appoint the aides of the district attorney of Orleans parish.
The turmoil in the criminal courts building today broke when a deputy sheriff knocked on the grand jury door and was refused admittance.
In the courtroom, when Judge Platt ascended the bench, Grand Jury Foreman R. M. Slavant said: "If your honor please, a few of the jurors have asked me to bring them into court, as they want to file a petition."
"If your petition in writing," Judge Platt asked.
"Yes, sir, it is and I would like to read it."
"You cannot make that petition public," the judge said. "I will under no circumstances permit you to do so. The proceedings of the grand jury are secret and cannot be made public."
The expectant courtroom crowd remained tense. Byrne's first assistant, Conrad Meyer, Jr., entered but Byrne remained in his office.
Then Powell, with the petition in his hand as if suddenly making up his mind exclaimed:
"I may be in contempt of this court but—" The rest of the sentence was drowned out as Judge Platt, seeing the

GRAND JURORS HERE FAIL TO MAKE REPORT

Federal Inquisitors Resume Investigations Of 'Routine Cases'
The federal grand jury in session here resumed its investigations of routine cases, this morning after a week-end recess, but no report of its findings was made.
It was reliably reported that six routine cases were probed and three were non-billed. In the other cases upon which bills have been voted, no partial report was made and United States District Attorney Harvey G. Fields indicated it is probable that no report will be made tomorrow. Two other matters will be presented, Mr. Fields said, upon which no report will be made until Friday.
In the meantime, Mr. Fields said, the grand jury will examine between 25 and 30 witnesses from throughout the district in connection with an investigation of PWA and WPA agencies. The investigation is being made, he said, to insure a thorough and careful check-up on the part of agencies involved.
The district attorney hinted that possibly two or three bills will be reported Friday other than "routine cases."
"I will recommend to the jury that no further partial report be made today or tomorrow," Mr. Fields said, and in all probability the next report will cover only routine cases. However, in the report on Friday there will be matters of a different kind brought in.
Mr. Fields refused to divulge the nature of the investigations other than routine.
The session of federal court, which recommenced before Judge Gaston Porterie this morning after a recess following a night session last Friday, was devoted largely to motions and to selection of a jury in a civil case.

5 ENTER NOT GUILTY PLEAS IN TAX CASES

Includes 4 Lake Charles Night Club Operators And Consultant
NEW ORLEANS, Oct. 9.—(AP)—Four Lake Charles night club operators and a tax consultant, charged with conspiracy to violate the federal income tax laws, pleaded innocent when arraigned here today in United States district court.
The quintet, H. A. Mitchem, C. M. Lewis, George W. Woodard, Felix Maggioro and Robert Dalovisio, were given until October 31 to file pleadings in which arguments will be heard November 7.
Woodard, the consultant, was named in one indictment with Mitchem and Lewis and in another with Maggioro and Dalovisio. The government charges the total money involved in the alleged evasions is \$11,000.
The indictment against Mitchem, Lewis and Woodard contains four counts in the first of which the government alleges they made a false partnership return showing incomes of \$31,676.79, instead of \$66,488.57, which the government says was the true figure. The second count charges Mitchem with attempting to evade payment of \$1,979 on his 1938 personal income by the payment of \$1,716.08 instead of \$2,695.08, which the government claims he owes. The third count charges Lewis with evading payment of \$897.72 by paying \$370.17 instead of the \$1,267.89 allegedly due. The fourth count charges all three—Woodard, Mitchem and Lewis—with attempting to evade payment of \$4,915.72.
The indictment also charges that these partners gave J. H. Handley, mayor of Lake Charles, \$11,541. Mayor Handley, however, was not indicted.
There are three counts in the indictment against Dalovisio, Maggioro and Woodard.
In the first count it is alleged they reported as a partnership an income of \$16,537, instead of the true amount of \$58,581.79.
The second count charges Maggioro attempted to evade payment of \$3,216.34 on his 1937 income by paying \$304.71, instead of \$3,521.05.
The third count charges conspiracy between the three men to evade payment of \$6,432.68 in 1937 on the income of Maggioro.

ITALIAN PAPER STRIKES HARD AT COMMUNISTS

Says Fascists Born Anti-Reds And Will Remain So
ROME, Oct. 9.—(AP)—The newspaper Il Corriere Padano, owned by Air Marshal Italo Balbo, governor of Libya, declared today in an editorial that the Fascists were "born anti-Communist and are determined so to remain."
While Balbo owns the paper, he takes no part in its active direction.
The editorial, signed by Nello Guicci, director of the newspaper, was interpreted as a rebuke to some Italian papers which printed favorable articles about Soviet Russia after the development of the new German-Russian partnership.
Il Corriere demanded "not a gram of esteem, not an ounce of sympathy for the Bolsheviks."
"For us," the editorial said, "they are and always will be tragic clowns, professional frauds, models of coarse bestiality and living monsters in the service of the most lunatic, infamous degradation that universal history records."
Il Corriere said it objected especially to a sympathetic sketch of Marshal Klementi E. Voroshiloff, Soviet war commissar, published by a Rome magazine.
Labeling Voroshiloff "a sinister personage," the newspaper accused him of complicity in "felonious massacres, executions and horrible, wholesale carnage in accordance with his own whims or those of his master."
"Naturally Voroshiloff and his comrades, like all Russian Bolsheviks, are not men, they are beasts, and beasts, don't mean anything to us. Whether they glorify or slaughter one another is their business."
"At most it would mean a few less criminals abroad in the world."
"But that in Italy a Voroshiloff legend should be allowed which competes with the legend of Garibaldi—this positively cannot be." (Giuseppe Garibaldi was a famous Italian patriot of the 19th century.)

MOTORS TRIAL ON ANTI-TRUST CHARGES OPENS

Legal Test Will Be Made Of Sales Finance Methods
SOUTH BEND, Ind., Oct. 9.—(AP)—The anti-trust trial of the General Motors corporation and affiliates—legal test of sales finance methods allegedly used by big automobile manufacturers—was scheduled to start today in federal district court here.
Defendants with the motor firm were its finance companies, the General Motors Sales corporation and the General Motors Acceptance corporation, and 19 officials, notably Board Chairman Alfred P. Sloan, Jr., and President William S. Knudsen.
Interested onlookers were others of the Detroit automotive "big three"—the Ford Motor company and the Chrysler corporation. The extent of their freedom to promote their own finance companies hinged upon outcome of the trial.
A grand jury in session five days indicted the three companies, eight affiliates and 50 individuals here May 27, 1938.
Three almost identical indictments charged that they plotted to set up a monopoly, in violation of the Sherman act, by forcing dealers to finance sales through the manufacturers' own credit firms. This action, the indictments held, did "irreparable damage" to small finance companies.
Later the Ford and Chrysler defendants entered consent decrees admitting the practices charged and agreeing to stop them in return for a suspension of the prosecution.
Thomas W. Silk of South Bend, judge of the northern Indiana district, accepted these decrees last November 15 but pointed out that should General Motors be acquitted, they would not be binding.
Walter C. Lindley of Danville, judge of the eastern Illinois district, was to sit in the trial, Judge Silk has disqualified himself.
Holmes Baldridge of Washington, special assistant to the attorney general, headed a staff of 10 government lawyers and investigators.
John Thomas Smith, vice president and general counsel of General Motors, had charge of a defense staff.

NAVY PATROLS SEE NON-AMERICAN SUB

WASHINGTON, Oct. 9.—(AP)—The White House said today that navy patrols had observed a non-American submarine yesterday about 20 miles west of Key West, Fla.
Stephen Early, a presidential secretary, said it possibly was the same submarine which was reported Saturday 15 miles off Miami, Fla.
The submarine, Early added, was comparatively small. Also seen in the same vicinity, he said, were two non-American tankers.
He declined to say, however, whether the submarine and the tankers were of the same nationality.
This information is still in the process of being checked. Early asserted. He made that statement when asked whether other governments and American shipping had been notified of the presence of the undersea craft.

30,000 ATTEND OUACHITA FAIR

New High Record Set; Saturday's Throng Approximated 8,000
Total attendance at the Ouachita Valley fair which closed Sunday was given Monday as approximately 30,000, which is contrasted with 20,000 who paid admissions to see the show in 1938. Saturday proved the biggest day of the exhibition when approximately 8,000 paid admissions were received, stated E. S. Eby, executive secretary.
The weather man this year was well disposed and perfect weather was experienced from the day of the opening on Tuesday through Sunday. Far more attended from distant points in the Fifth congressional district and beyond, showing the widespread interest that has been aroused.
Harry D. Wilson, state commissioner of agriculture and immigration, highly complimented the fair when he was a visitor last Thursday, but not content with this, he wrote a letter from Baton Rouge which was received by the fair management Monday, in which he again stressed the permanent value of a fair such as was held here and said that it will rank with the very best held in the state this fall.
The rodeo proved a great drawing card and all six exhibitions were attended by capacity crowds.
Monday the booths were being dismantled and by night all traces of the fair will have been removed to await another year's show.

RED RUSSIAN FLAG FLIES AT TULANE

NEW ORLEANS, Oct. 9.—(AP)—The red flag of Soviet Russia flew from the Tulane university campus flagpole for a while here today.
Students on their way to class discovered the flag flapping high on the pole, which had been thoroughly greased. The ropes used to raise the flag had been cut.
Porters were summoned and finally lowered the emblem. School officials were undecided whether the act sprang from humor or malice.
In the past the banner of rival Louisiana State university has been raised in similar incidents.

POLITICS HOT IN LOUISIANA

Sam Jones Says He Will Convert 'Mansions' Into Museums
NEW ORLEANS, Oct. 9.—(AP)—Politics was popping with old-time vigor in Louisiana today after a week-end of stump speaking in which the candidates fired their best verbal barrages.
Sam Jones of Lake Charles, speaking in his home town Saturday night declared he would convert into museums the "costly mansions" of "political plunderers" if elected governor.
Governor Earl K. Long, campaigning in north Louisiana, told audiences "I am not going to sell you out. I am not going to lie. I am going to economize. I have no desire to be rich. I couldn't be happy."
State Senator James A. Noe, across the river from New Orleans at Harahan yesterday, told a Veterans of Foreign Wars picnic, "Earl Long and Bob Maestri promised you people four years ago and then made fools out of you. That was their fault. But if you believe all their promises again and let them make fools of you, then it will be your fault."
He announced Charles E. McKenzie of Monroe would be his campaign manager.
At Covington James H. Morrison attacked both Long and Jones and said "It is easy enough to attack the big boys now because they are on the down grade," but that he was the only one who had the courage to attack them two years ago at the height of their power.
Noe and John P. Short of New Orleans appeared at the opening of the Donaldsonville fair. Short said if elected governor he would establish a standard scale of farm prices and

DEAN POWELL AGAIN REJECTS BISHOPRIC

WASHINGTON, Oct. 9.—(AP)—Dean Noble C. Powell of Washington cathedral announced today he had declined an offer to become bishop of the Episcopal diocese of Louisiana.
It was the second time in recent months he had rejected the Louisiana election.
"My decision to decline my election as bishop of Louisiana," said the clergyman's statement, "came only after the most grueling examination both of myself and of my work. The fact that it was a second election made it all the more difficult to reach a decision."
"But in the light of all the many complex elements which enter into the picture, it was abundantly clear to me that notwithstanding the especially privileged work in the diocese of Louisiana, with the resources available on Mt. St. Albans (location of the Washington cathedral) and especially the contacts with the clergy through the college of presbyters, whatever little part I may be able to take in the work of the church can more effectively be taken in my present post of duty."

TAX ASSESSMENT PROBE LAUNCHED

NEW ORLEANS, Oct. 9.—(AP)—Investigation of an alleged "tax assessment reduction racket" here was begun by the federal grand jury today while other grand juries also resumed sessions over the state.
United States Attorney Rene A. Viocha said the federal body would probe charges first made last February by Hugh M. Wilkinson, New Orleans attorney, that the state treasury had been robbed of hundreds of thousands of dollars by the alleged practice of offering reductions in assessments to business men here for a fee of half the reduction.
The Orleans parish grand jury investigated Wilkinson's charges and reported last April there was insufficient evidence on which to indict.
Viocha said he would present a "voluntarius file" of reports made by nearly a score of WPA investigators to the grand jury after it had finished with the assessment reduction charges. Agents have been studying WPA work throughout Louisiana for months, under the direction of Paul E. Hansen, agent in charge of the WPA regional investigative unit.
Meanwhile the federal grand jury at Monroe, and the East Baton Rouge, Caddo and Calcasieu parish grand juries met again.

AUTO WRECK KILLS 4 NEAR BLANCHARD

SHREVEPORT, La., Oct. 9.—(AP)—Four deaths and injuries to three persons was the toll of a two-car collision yesterday near Blanchard on the Shreveport-Blanchard highway.
Dead were Jerry Ann Nelson, 21-month-old daughter of Mr. and Mrs. Lloyd Nelson of Shreveport; Dexter J. Eaton, 48, W. Durham Rives, 56, and A. F. Thomas, 60, all of Vivian.
Injured were Steve Walton, 39, Vivian, and Mr. and Mrs. James Hollingsworth, of near Blanchard.
Deputy Sheriff Miles J. Byrne said W. M. Tyler, who saw the crash from his front porch, related that the Hollingsworth car came onto the highway from a side road. The collision with the automobile containing the four Vivian men, going toward Blanchard, spun the Hollingsworth car around on its rear to fall on its right side.
The Nelson child was the Hollingsworths' granddaughter.

MINISTER EXPIRES WHILE PREACHING

NEWNAN, Ga., Oct. 9.—(AP)—A heart attack was fatal to Dr. James Wilson Johnson while preaching his morning sermon yesterday at the First Methodist church.
The 65-year-old native Alabamian was a member of the judicial council of the former Methodist Episcopal Church, South, and had held many important southern pastorates in his 42 years in the ministry. He was a chaplain in the World war.
He held pastorates in Alabama, Kentucky, Texas and Georgia.
Survivors include his widow, a daughter, Mrs. Samuel B. Kirby, Louisville, Ky.; two sons, J. W. Johnson, Jr., Fort Worth, Tex., and H. McCoy Johnson, Newman, and two brothers, the Rev. T. H. Johnson, Langdale, Ala., and S. A. Johnson, Hartselle, Ala.

GLADNEY CALLS FOR POLITICAL CLEANUP

MORGAN CITY, La., Oct. 9.—(AP)—Legionnaires of the Third district had the word today of Edward L. Gladney, Jr., commander of the Louisiana department of the American Legion, that "although the American Legion is not in politics, it is the responsibility of legionnaires as citizens to see that any official unfaithful to the duties of his office is removed."
Gladney addressed members from posts at New Iberia, Thibodaux, Houma, Franklin, Lafayette, Napoleonville, Morgan City and Breauville here yesterday.

DAYRIES WILL HEAD GUARD ASSOCIATION

NEW ORLEANS, Oct. 9.—(AP)—Major P. A. Dayries, acting commander of the 141st field artillery here, was elected president of the National Guard Association of Louisiana yesterday, succeeding Captain Harry Stahl of Shreveport.
The association met at Jackson barracks, preceding a review and drill, presentation of the Louisiana distinguished service medal to Adjutant General Raymond H. Fleming, and citations to seven officers who had completed 25 years of service in the national guard.
Plans for bringing the national guard strength of the nation to 235,000 were discussed by General Fleming at a session of the National Guard association.
The quota for Louisiana is 450 men, of whom 126 have already been enlisted.

WORK STARTS ON MEMORIAL TO JEFFERSON

Dream Of 30 Years Comes True; Will Cost \$30,000,000

ST. LOUIS, Oct. 9.—(P)—Actual work of clearing the historic St. Louis riverfront for a \$30,000,000 memorial to Thomas Jefferson started today.

It was a dream of 30 years come true. Wrecking operations were launched following a brief ceremony, presided over by Mayor Bernard F. Dickmann, an ardent advocate of the project through years of legal battles over obtaining the property, bond elections and even bitter congressional debate.

The site of the gigantic project—to be known as the Jefferson National Expansion Memorial—is a 40-acre block area covering 79 acres in what was the heart of commercial St. Louis in steamboat days.

Once it was a bustling neighborhood—now it is a "ghost town."

The first block to be razed contains the site where Pierre Laclede landed when he founded the city in 1764, but only abandoned buildings mark this and the starting place of the Lewis-Clark expedition.

Except for the occasional rumbling of a train or the infrequent roar of a truck up the steep, narrow cobblestone streets, there have been few signs of life in recent years. Yet the present business district is only a stone's throw away.

The government will pay three-fourths of the cost of the project and maintain it. A \$15,000,000 bond issue voted in 1937 will provide the remaining one-fourth.

The design for the memorial has not been decided upon but it is expected to center around a massive statue of Jefferson, a copy of the Louisiana Purchase Act, a cathedral, the first stone building and a few other landmarks will remain.

"Familiarity of the peace market business, important since 1914, is not war. With war continuing, prospects are good that 1939 will be the best year since 1919."

T. W. Schultz, Iowa State college, Ames, Ia., said:

"Stronger demand for most farm products, especially for meat, is more likely to come as the result of improvement in European activity and larger production within the United States, rather than from expanded foreign buying of domestic goods."

Ray B. Westfield, Yale university, New Haven, Conn., said:

"The basis being broader than merely war orders, it may reasonably be expected that a long season will be one of real activity, whether the war continues or not."

Dale Yoder, University of Minnesota, Minneapolis, Minn., said:

"If war continues, expect further expansion with serious recession when peace forces readjustment. If war ends shortly, some recession, but future will depend largely on nature of peace settlements and political prospects in this country."

The liberal Manchester Guardian declared editorially: "A false step now giving the impression we are either weak or unsure in our defense of the liberties of Europe may make it exceedingly difficult to win sympathy and help of the United States today or tomorrow."

DIPLOMATIC CHARGE QUICKENED BY RUSSIA

By Associated Press.

A quickened Soviet diplomatic offensive today held the center of the European stage from the stalemated western war front.

Working swiftly, while Germany and the British-French allies are preoccupied with their slow-moving war and Hitler's peace offer, Russia pushed her drive for increased domination of eastern Europe and her cooperation with Germany with fourfold rapidity.

Finland, Lithuania, Turkey and Germany herself were included in the scope of Russian activities.

Estonia and Latvia already have fallen under Soviet sway through military and economic concessions. A similar pact with neighboring Lithuania was expected shortly.

Finland, though promising herself there would be no capitulation to the Russian giant, agreed to send a special envoy to Moscow for important talks.

John Kusti Paasikivi, Finnish minister to Sweden, was selected the most likely candidate to head the Russian diplomatic mission in Moscow, where diplomatic activity has increased since Russia and Germany collaborated in the partition of Poland.

A German trade delegation, which arrived yesterday, reached quick agreement that Russia "should immediately begin supplying Germany materials and German filling orders for the Soviet union."

Some mystery surrounded negotiations with Turkey. Turkish Foreign Minister Sukru Saracoglu remained in Moscow, but without apparent results from his visit. There were reports his course would be determined somewhat by the results of a Turkish military mission currently sent to London.

The Soviet government newspaper Izvestia threw its weight behind Adolf Hitler's peace gestures with an editorial accusing France and Britain of "returning to the middle ages" for waging war to exterminate Nazism.

Germany started a program of repatriating German minorities from other countries of eastern Europe. Persons of German blood in small Baltic states occupied the first attention of Berlin, but minorities in the Balkans were said to be next on the list.

In western Europe, a French communiqué reported "activity of elements in contact" south of Saarbrücken on the western front where heavy German and French fortification lines have kept the war virtually deadlocked.

French military sources said German forces were taking the offensive in a minor way, apparently to get prisoners for questioning.

Britain maintained war preparations at a high gear waiting for the government to formulate some answer to Hitler's Friday recharging speech in indicating his desire for peace on German terms.

It was believed Prime Minister Chamberlain would defer a reply until he makes his weekly report Wednesday to the house of commons. He repeated in commons today, however, that Britain and France were "in complete accord" as to their purposes in the war.

'ON A DARE'

Lester D. Scharff has been named general manager of the Monroe Furniture company and its associated stores by Mrs. Ida I. Kaplan, chairman of the board of directors. Mr. Scharff assumes active management of the organization immediately because of the illness of Joe Isaacman, which makes it necessary for him to retire from active participation in the business for an indefinite period.

In making the appointment Mrs. Kaplan stressed the fact that Mr. Scharff had been an executive in the organization for the past 15 years, coming to Monroe in 1924 to join the Monroe Furniture company.

"During the time that Mr. Scharff has been with our organization," Mrs. Kaplan said, "he has been advertising manager, merchandising manager and sales manager of the Monroe Furniture company for eight years and then he was transferred to Shreveport as manager of the American Furniture company there, which is our largest associated store. He remained in Shreveport until February of this year when he came back to Monroe as manager of this store. With this thorough knowledge of the furniture business together with his hundreds of friends throughout this city and territory, Mr. Scharff is well equipped to take up his new duties."

Mr. Scharff announced that it was his aim to continue, in fact, the policies which are now in effect at the Monroe Furniture company and its associated stores by continuing to stress complete and comprehensive assortments of quality merchandise at the lowest possible prices and prompt and efficient service in every department.

"These are the policies," Mr. Scharff said, "on which the Monroe Furniture company was founded and on which it has continued to grow for over forty years."

The progress of the firm is exemplified in its new store which is nearing completion. The Monroe Furniture company expects to occupy this new store some time during the latter part of November.

Meantime, the nation's armed forces heard King George assert that though your task may be long and arduous, I have every confidence in your ultimate success.

GIACOBIND METEORS WILL BE VISIBLE

NEW YORK, Oct. 9.—The Giacobind meteors are expected to be visible tonight and tomorrow night in the northwestern sky. They should be seen in the vicinity of the bright star, Vega. Usually these meteors are so few they attract no notice. But astronomers think there may be a shower of them this year. They fly around the sun in the same orbit as the Giacobind-Zinner comet and are believed to be scattered throughout the region close to the comet.

Physicians, describing Cuneo's condition as "poor, but not critical," said efforts would be made to withdraw the steel siver with a magnet. They added it was problematical whether a clot would form which would permit his heart to heal.

KNOWS EVERY BRICK ON MAIN STREET

Of the scribbles, the most methodical is Sinclair Lewis. He labors longer and harder over the convincing sound of a name or the accuracy of a locale than does an architect over his minutest plans. Before Lewis decides upon a name for a character, he writes down the names of hundreds and selects one with fastidious care. Before transferring his fictional characters from one place to another—he is a little city block—he draws a map and plots their itinerary with an inch-scale ruler. When he is describing the interior of a scene, he builds a model setting in cardboard and plans his narrative from the paper mache replica. When his book is finished, he gives it to friends who are adept at making blue-prints, that they may pass upon its accuracy.

Jimmie Fidler In Hollywood

HOLLYWOOD, Oct. 9.—Filmville's underdogs, now completely organized, are on the rampage for higher wages—and Filmville's overlords are frankly worried. Only a few days ago studio workers pried a general 10 per cent raise out of the industry's coffers—a raise that was particularly significant since box office returns, thanks to the European war, are at their lowest ebb in years. Key men in the various types of studio work assure me that their campaign is just starting that this time they are going to "get theirs."

I don't pretend ability to pass on the justice or injustice of their demands. I'm interested in the ironic aspect of the producers' plight. For years, Hollywood's high-ups have been flaunting their wealth as blatantly as ostentatious, that public opinion, which is always a determining factor in any battle between labor and capital, is now against them. In any other industry, Hollywood's overpaid executives would have been ousted long ago. But here, surrounded by the studio's vast resources, they are still in power.

The small wonder that the plea for higher wages is being made. One of the reasons for the high wages is the fact that the studio executives are the only ones in Hollywood who are not paid by the hour. They are paid by the year.

...the studio executives are the only ones in Hollywood who are not paid by the hour. They are paid by the year.

...the studio executives are the only ones in Hollywood who are not paid by the hour. They are paid by the year.

REDS 'BUMS' IN CINCINNATI AFTER FOURTH LOSS

LOMBARDI AND MYERS GOATS OF LAST GAME

New York Yankees Take World Series In Straight Games

By Gastle Talbot
CINCINNATI, Oct. 9.—(AP)—The one day of the 1939 world series was the day of the Yankees. The Red Sox, who had been the favorites, were routed by the Yankees in a 10-0 victory.

Somehow, the scene is symbolic of the entire series. The New York Yankees have been the favorites, and they have won the series in straight games.

This town has loved the Reds and taken a terrible beating in them all season, but after yesterday's final 10-0 beating, after having watched them flounder in the first round of the playoffs, the town is now a different place.

They were particularly bitter about Lombardi, who probably set a single world record for a pitcher in a single game. He pitched 10 innings, gave up 10 runs, 10 hits, and 10 errors.

What happened to the Reds? The answer is simple. They were out of sync. They were not playing as a team. They were not playing as a unit.

As a matter of fact, the Yankees did not play as a team either. They were not playing as a unit. They were not playing as a team.

But the Yankees did win. They did win the series. They did win the world. They did win the championship.

And the Reds? They were the bums. They were the losers. They were the underdogs.

But the Yankees did win. They did win the series. They did win the world. They did win the championship.

NATIONAL GRID SITUATION IN TALL MUDDLE

1939 Champion Apparently Will Be Found Somewhere In South

By Hugh S. Fullerton, Jr.
NEW YORK, Oct. 9.—(AP)—The hunt for a national football champion, ordinarily just getting under way at this stage of the season, has reached a state of confusion comparable only to a National League fan's explanation of the world series.

"I don't think that Saturday's disturbing results, the best yet for the 1939 championship, will be anywhere in the south, but even there strength seems to be so well distributed anything may happen before the end of November."

Such highly touted outfits as Minnesota, Northwestern, Fordham, and Holy Cross were thoroughly and unexpectedly beaten. Army, Navy and Notre Dame had narrow escapes.

Among those that have displayed real strength are Pitt and Cornell, in the east. Iowa, Ohio State, Nebraska and Oklahoma in the midwest, Texas and Texas A&M in the southwest, Utah in the Rocky mountains, and U. C. L. A., Southern California and possibly Oregon, on the west coast.

The south, however, offers Duke, North Carolina, Alabama, Mississippi and Mississippi State as candidates for top ranking with a half dozen or so others that may emerge. This week's intercollegiate program, however, may eliminate some of them.

East Pitt, which followed its triumph over Washington with a 20-0 victory, was the surprise of the week. It was a surprise because of its outstanding forward-passing offense. The Panthers will continue to play Duke, which went to town 27-0 against crippled Calgate, next Saturday, and the game should settle the question of one of the other teams in the championship.

Possible eastern contenders include Florida, Georgia, Clemson, and Virginia Tech. The four Southeastern conference football teams in Louisiana and Mississippi go back to books and the training ground today with satisfied expressions.

Each was victorious on the Saturday. Louisiana State university, which was the favorite, won 26-7 at Worcester, Mass., with End Ken Kavanaugh leading the way. The team was given an uproarious welcome home last night by 5,000 students in the L. S. gym.

A smart, powerful Tulane team, showing greatly improved aerial attack and defense, stopped Auburn 12-0. Mississippi State, which was the underdog, won 21-0 at Memphis, 41-0.

IT'S THAT KELLER MAN AGAIN!

Seven Teams Threaten In Southeastern

Tennessee, Alabama and Tulane Move Along As Expected
By Kenneth Gregory
ATLANTA, Oct. 9.—(AP)—Warning signals forecasting rough sailing ahead went up today in the football camps of the Southeastern conference.

Just when it appeared this 1939 championship race would be a three team affair, the scene changed surprisingly in the early stages and the potential threats have increased to seven.

The top trio of the big thirteen—Tennessee, Alabama and Tulane—has moved along as expected, but into the picture have edged Kentucky, Mississippi, Georgia Tech and Mississippi State.

Those seven are the conference's remaining undefeated and untied teams after three weeks of competition and observers found it unsafe to predict a winner at this time.

Congratulations were in order today for Alabama, Louisiana State and Georgia Tech for their intercollegiate forays and to Kentucky, Tulane and Mississippi State for their conquests in the conference championship race.

Louisiana State, defeated 14-7 by Mississippi Rebels, rebounded from that conference setback to crush the national hopes of Holy Cross with an overwhelming victory. Alabama's hunky Crimson Tide did just as nifty by bowing over Fordham's Rams, 27-0.

At this stage of the gridiron campaign, Mississippi State has proved the big surprise. The Maroons romped over Howard, then crushed Arkansas and opened the conference slate Saturday with a 14-0 decision over Florida.

Mississippi State and Auburn meet this week at Birmingham in the lone intra-conference game on the program, which is otherwise featured by four intercollegiate and topped by Tulane's clash with Fordham in New Orleans. Louisiana State tackles Rice, Georgia Tech meets Holy Cross and Florida plays Georgia.

Nominated the conference's No. 1 team, Tennessee bowled over Sewanee last week 40-0 after an earlier win over N. C. State and goes against Chattanooga this weekend. Tennessee's big test, the October 21 classic with Alabama. The latter rests from its successful conquest of Fordham by playing Mercer.

Georgia Tech gets a breathing spell against Howard, but the following week moves into the championship struggle against Vanderbilt, which this week tackles Virginia Military institute, a team Kentucky defeated 21-0. Kentucky plays Oglethorpe and Mississippi meets Centenary.

Washington's Redskins kept pace with the Giants atop the eastern group with a crushing 41-13 triumph over Brooklyn and Green Bay and the Chicago Bears stayed on the heels of the Detroit Lions in the west.

The Redskins, gaining 430 yards on the ground and in the air, raced through the Dodgers for 20 points in the final quarter and were always at least seven points ahead. The Redskins and Giants now have two victories and a tie each.

In the west the Bears romped over Cleveland, 35-21, and Green Bay defeated the Chicago Cardinals, 27-20. The Packers ran up 21 points before the Cards found them vulnerable in the first period. Then in the last period Bill Smith, Chicago end, took two touchdowns and Marshall Goldberg scored the other on a short pass. But one Cardinal aerial intercepted. Don Hutson, Packer end, intercepted it. The Redskins and Giants now have two victories and a tie each.

GIANTS BEAT PIRATES 14-7 IN GRID GAME

Passing Battery Of Eddie Danowski And Ward Cuff Holds Good

By Tom Siler
CHICAGO, Oct. 9.—(AP)—The veteran passing battery of Eddie Danowski and Ward Cuff is operating at the same old stand as pitcher and catcher for the New York Giants, champions of the National Pro Football league.

This twosome, which had much to do with the Giants' title march last fall, demonstrated again yesterday just how they did it as the Giants cut down the Pittsburgh Pirates, 14-7. Cuff scored all the points for the New Yorkers, taking two passes from Danowski for the touchdowns and place-kicking both extra points.

The Pirates, playing their first game under Walter Kiesling, successor to Coach Johnny Blood, marched 69 yards to the game's first touchdown in the second period. The final gun found them leading the Giants 7-0. It was the fourth straight loss for Pittsburgh, only team in the league which has neither won nor tied a game.

This game and the other three played Sunday, came out as expected, bringing no clarification of the eastern or western division races.

Washington's Redskins kept pace with the Giants atop the eastern group with a crushing 41-13 triumph over Brooklyn and Green Bay and the Chicago Bears stayed on the heels of the Detroit Lions in the west.

JOHNSON LEADS SOUTHEASTERN POINT SCORERS

Sparkplug Of Mississippi State Credited With Total Of 26

By Romney Wheeler
ATLANTA, Oct. 9.—(AP)—High-stepping Harvey (Bronx) Johnson, sparkplug of the Mississippi State touchdown machine, was out in front today in the 1939 race for individual scoring honors of the Southeastern conference.

The Maroon halfback, with four touchdowns and two points after in three games this season, was credited with 26 points—two jumps ahead of nifty Ken Kavanaugh, Louisiana State end, who ran up 24 points Saturday with four touchdowns against Holy Cross.

Bob Foss, Tennessee's leather-toting halfback, held third place with 18 points, the fruit of three touchdowns scored in the Vols' first two games. Junius Plunkett, Vanderbilt halfback, was close behind with two touchdowns to credit and two points after in three games, a total of 14 points.

Deadlocked for fifth notch with 12 points each were Halfback Dave Zeller of Kentucky, End Chich Gladding of Ole Miss, and Fullback Paul Spencer of Alabama.

All told, Southeastern conference teams have rolled up 414 points since the start of the season, against 223 by their opposition. Mississippi State, undefeated in three starts, lead the parade today with 78 points. Ole Miss, with 55 points in two successful starts, ranked second; Tennessee third with 53 in two victories, and Kentucky fourth with 42 in two triumphs.

Other conference teams, in order, were Vanderbilt, 39; Louisiana State, 33; Alabama, 26; Georgia Tech, 14; Auburn, 6; and Sewanee, 0.

Five intra-conference games since the season opened have yielded 121 points—101 for the winners and 20 for the losers.

Tennessee, with a 40-0 rout of Sewanee Saturday, led the conference scoring, while Kentucky, with 21 points gained against Vanderbilt, was second. Ole Miss and Mississippi State tied for third with 14 points each, scored respectively against L. S. U. and Florida. Vandy, a loser, was fifth with 13 points, while Tulane's 12-0 shutout of Auburn Saturday placed the Green Wave sixth. Louisiana State listed 7 points, salvaged out of the Tigers' upset by Ole Miss, but Auburn, Sewanee and Florida remained scoreless in conference competition.

The suspension of drivers' licenses as a penalty for driving while drunk has increased greatly in Texas. In the fiscal year 1938-37, first year the law was in effect, 264 licenses were suspended, while in the year just closed there were 1,258 suspensions.

Dick Cassiano, Pitt: Scored once on smart 38-yard punt and made frequent other gains as Pitt blanked West Virginia, 20-0.

Beryl Clark, Oklahoma: His fine punting helped nullify fine running of Northwestern's Bill de Corvovent as Oklahoma won, 23-0.

Dick McGowan, Auburn: His team lost, 12-0, but his punting kept Tulane from getting into scoring position more often.

Ermal Allen, Kentucky: Sparkplug in attack that beat Vanderbilt, 21-13. Nile Kinrick, Auburn: Ervin Frasse, Iowa: This combination clicked for three touchdowns in a thriller, 32-20.

Jay Graybeal, Oregon: Scored all the points—touchdown, field goal and point after touchdown—as Stanford was defeated, 10-0.

Jack Robinson and Kenny Washington, U. C. L. A.: Made possible the Uclan's 14-7 win over Washington.

Sunday's results:

NEGATIVE RECORDS MADE IN SERIES

CINCINNATI, O., Oct. 9.—(AP)—In many ways this world series was one of the nothings in history.

Records set or equaled were virtually all negative. The New York Yankees made records by not using a single pinch-hitter and by committing only two errors.

In the entire series there were only 15 bases on balls, compared with the previous record of 17 for a four-game series set in the 1927 and 1928 classics.

There was just one base stolen in the series, bettering the earlier low of two in the 1927 and 1932 series. The two defeats charged against Bucky Walters equaled another mark as did the performances of Wally Berger and Lonnie Frey in playing throughout the series without a hit.

Johnson leads Southeastern point scorers. Sparkplug of Mississippi State credited with total of 26.

ATLANTA, Oct. 9.—(AP)—High-stepping Harvey (Bronx) Johnson, sparkplug of the Mississippi State touchdown machine, was out in front today in the 1939 race for individual scoring honors of the Southeastern conference.

The Maroon halfback, with four touchdowns and two points after in three games this season, was credited with 26 points—two jumps ahead of nifty Ken Kavanaugh, Louisiana State end, who ran up 24 points Saturday with four touchdowns against Holy Cross.

Bob Foss, Tennessee's leather-toting halfback, held third place with 18 points, the fruit of three touchdowns scored in the Vols' first two games. Junius Plunkett, Vanderbilt halfback, was close behind with two touchdowns to credit and two points after in three games, a total of 14 points.

Deadlocked for fifth notch with 12 points each were Halfback Dave Zeller of Kentucky, End Chich Gladding of Ole Miss, and Fullback Paul Spencer of Alabama.

All told, Southeastern conference teams have rolled up 414 points since the start of the season, against 223 by their opposition. Mississippi State, undefeated in three starts, lead the parade today with 78 points. Ole Miss, with 55 points in two successful starts, ranked second; Tennessee third with 53 in two victories, and Kentucky fourth with 42 in two triumphs.

Good Tools for Good Work

It is our declared policy to make our railroad a good place to work by assuring employees both reasonable wages and fair treatment in working conditions. To these must be added our provision of the proper tools to enable them to perform their tasks with the greatest ease and efficiency. The tools which the employees of the Illinois Central System use in the transportation of freight and passengers consist of our property, mainly road and equipment. In these tools we have invested some \$750,000,000, or just about \$25,000 per employee. Behind each of our workers therefore is an investment in tools equivalent to the cost of a fully equipped farm, a well stocked store or a small factory. This investment is constantly being increased as improvements are adopted for the betterment of the service our railroad provides for its patrons.

Energize Lazy Insides All-Vegetable Way

Here's a laxative that acts as thoroughly as the harsher ones, but is a gentle persuader for the intestines when used this way:

A quarter to a half-teaspoonful of a spicy aromatic powder on your tongue tonight; a drink of water; and there you are!

Follow these directions and purely vegetable BLACK-DRAUGHT usually allows plenty of time for sleep; acts gently; generally produces an evacuation that's thorough, and along with it relieves constipation's headaches, biliousness, irritability or sour stomach.

BLACK-DRAUGHT'S effectiveness comes from its unusual help in giving tone to lazy intestinal muscles. That is due to its principal ingredient, medicinally known as an "intestinal tonic-laxative."

Next time, use all-vegetable BLACK-DRAUGHT. The millions of packages used proclaim its merit. Economical, too, 25c to 40c doses. 25c.—Adv.
